Light UP

the night for equality

5 Rights NOT

afforded to **1** of every **10 people** in the US

1. In many states I can be **fired** for being gay or transgendered.
2. In many states, I **cannot be the legal guardian** to the child that my spouse and I parent.
3. I **cannot fight for my country** because of who I love.
4. I **cannot sponsor my partner** to become a US citizen.
5. There are over **1,100 rights, responsibilities, and privileges lost** because I cannot legally marry the person I love.

These make up just a handful of the many civil rights and protections that are not afforded to myself or my family because of who I love.
