Re: General Election 2004, Hocking County - Tri Ad
Dell Computer about 14 years old - No tower

On Friday, December 10, 2004, Michael from Tri Ad called in the AM to inform us that he would be in our office in the PM on the same day. I asked him why he was visiting us. He said, "to check out your tabulator, computer and that the attorneys will be asking some tricky questions and he wanted to go over some of the questions they may be ask". He also added that there would be no charge for this service.

He arrived about 12:30PM. I hung his coat up and it was very heavy. I made a comment about it being so heavy. He Lisa Schwartze, Director, and I chatted for a few minutes. He proceeded to go to the room where our computer and tabulation machine is kept. I followed him into the room. I had my back to him when he turned the computer on. He stated that the computer was not coming up. I did see some commands at the lower left hand of the screen but no menu. He said that the battery in the computer was dead and that the stored information was gone. He said that he could put a patch on it and fix it. My main concern was - what if this happened when we were ready to do the recount. He proceeded to take the computer apart and call his office to get information to input into our computer. Our computer is fourteen years old and as far as I know it has always worked in the past. I asked him if the older computer, that is in the same room, could be used for the recount. I don't remember exactly what he said but I did relay to him that the computer was old and a spare. At some point he asked if he could take the spare computer apart and I said, "yes". He took both computers apart. I don't remember seeing any tools and he asked Sue Wallace, Clerk, for a screwdriver. She got it for him. At this point I was frustrated about the computer not performing and feared that it wouldn't work for the recount. I called Gerald Robinette, board chairman, to inform him regarding the computer problem and asked him if we could have Tri Ad come to our office to run the program and tabulator for the recount. Gerald talked on the phone with Michael and Michael assured Gerald that he could fix our computer. He worked on the computer until about 3:00PM and then asked me which precinct and the number of the precinct we were going to count. I told him, Good Hope 1 #17. He went back into the tabulation room. Shortly after that he ~~said~~ stated that the computer was ready for the recount and told us not to turn the computer off so it would charge up.

Before Lisa ran the tests, Michael said to turn the computer off. Lisa said, "I thought you said we weren't to turn it off". He said turn it off and right back on and it should come up. It did come up and Lisa ran the tests. Michael gave us instructions on how to explain the rotation, what the tests mean, etc. No advice on how to handle the attorneys but to have our Prosecuting Attorney at the recount to answer any of their legal questions. He said not to turn the computer off until after the recount.

He advised Lisa and I on how to post a "cheat sheet" on the wall so that only the board members and staff would know about it and what the codes meant so the count would come out perfect and we wouldn't have to do a full hand recount of the county. He left about 5:00PM.

My faith in Tri Ad and the Xenia staff has been nothing but good. The realization that this company and staff would do anything to dishonor or disrupt the voting process is distressing to me and hard to believe. I'm being completely objective about the above statements and the reason I'm bringing this forward is to, hopefully, rule out any wrong doing.

Addendum to Declaration of Evelyn Roberson dated December 12, 2004
Re: Incidents of December 10, 2004

This is to add to the approximately 1:15 p.m. portion of the visit with Deputy
Director of Elections Lyn McCoy with respect to the following comment:

“She said they would have their computer technician check over their computers
on Monday in case they had been tampered with.”

The addition is that Lyn McCoy also mentioned to me at the same time that her
computer technician was with Triad.

I declare under penalty of perjury the foregoing is true and correct.

Dated: Dec. 14, 2004 Evelyn Roberson *Evelyn Roberson*
