Small to Mid-sized Web Sites

DATASHEET

OneStat.com tells you everything about online visitor behavior on your web site…

**Get Real-time Answers with OneStat.com
Optimize your e-Business and online Communication activities.**

OneStat.com is the number one provider of real-time web site analysis software and e-business intelligence web analytics in the world. Our superior technology powers thousands of websites in more than 100 countries all over the world. With our accurate, detailed & reliable reports we will be able to answer your questions about visitor behavior, site performance and retention.

OneStat.com has developed a much more accurate technology as the traditional log-file analysis. It is browser based and provides next-generation measurements that are up to 60% more accurate than the traditional log-file analysis. The solutions of OneStat.com are easy to set-up and you don't need any hardware.

If your web site is important for your, then you need OneStat.com

OneStat Premium: Advanced Web Analytics for Small to Mid-sized Sites.

OneStat Premium is the most professional real-time analysis solution we offer for small to mid-sized web sites to track & analyse the behavior of visitors to your web site. OneStat Premium provides detailed reports to optimize the effectiveness of your online communication and e-business activities.

The unique features of OneStat Premium:

✓ **Detailed Reports**
OneStat Premium provides detailed reports about in-depth visitor behavior.
✓ **More features**
OneStat Premium offers unique features such as pageviews, visits, visitors, navigation, entry & exit pages, time spent on site, countries, languages, continents, search engines & keywords.
✓ **Extra time periods**
All reports of OneStat Premium can be viewed in standard time periods like per day, week, month and year but also in specific time ranges.
✓ **Measures unlimited number of pages**
Measure all the pages of your web site. We have no limit of the number of pages you are allowed to measure.
✓ **Export Reports**
You can export all the reports to Microsoft Excel or use our unique print feature.

OneStat Premium has several unique advantages compared with other solutions:

Real-time Measurement
All visitor information is collected and reported real-time, allowing executives and marketing departments to make faster, smarter decisions.

Accurate Browser Based Measurement
OneStat.com has developed a much more accurate technology as the traditional log-file analysis. It is browser based, doesn't require any hardware and provides next-generation measurements that are up to 60% more accurate than the log-file analysis.

No Extra Hardware Required
Because all the software which is required to measure your web site is remotely hosted on the reliable OneStat.com servers, you don't need to buy extra servers like you have to do with traditional log-file analysis.

Accurate IP Database
Our technical department takes care that our solutions will use the most extensive and recent IP database so we will exactly know who your visitors are and where they come from.

Objective & Third Party Independent
OneStat.com is a completely objective third party measurement source. Since the data is coming from an independent source, your customers and partners can be entirely confident that it is accurate and objective.

### Continually Added Real-time Reports & Software Updates
OneStat.com will continually add new real-time website analysis reports on a regular basis. This is all included in our services. This way you will be able to view the latest and next-generation reports regarding visitor behavior of your web site at no extra fees and personal involvement.
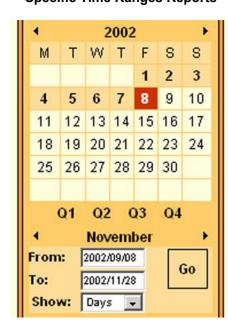

Get the most detailed reports of any period with OneStat.com. Anytime. Anywhere.
