

Nine Puppies Need Good Homes!

On Saturday, July 21 I found a mother dog (tied to a tree) and nine puppies in a box--abandoned near Troutdale. A note on the box said the owner couldn't take care of them. I brought them home and am taking care of them until I can find good homes for them. I plan to adopt and spay the mother. The pups are about a month old and will be ready for adopting in early August. They are a lab mix--half of them are black and half of them are brown, and most have a dab of white on their paws or chest. Males and females. They are healthy and adorable, rambunctious little puppies!

If you are interested in taking home a puppy, you must be prepared to spay/neuter it. An adoption fee of \$25-\$50 will cover the costs I am incurring with food, a vet home visit, crate, doggie daycare, etc.

Thanks for helping find homes
for these pups!
