

Back by demand in limited edition reprint.

Order your copy now of this limited-edition reprint of “Hochul’s War” for \$14.95. All net proceeds support 2nd Amendment litigation costs.

Dear Friends,

More than a year ago, “Hochul’s War: The Fuse is Lit” was a sell-out of a 250 print run first edition. It’s the perfect time to fulfill your many requests for a reprint. So much has happened since Summer 2022 when NY Gov. Kathy Hochul pushed a 10-bill package through as an assault on the Second and the Fourteenth Amendments, in retribution for the U.S. Supreme Court victory in NYSRPA v. Bruen. This White Paper, originally published 02.27.2023, is an 18-page analysis with 47 footnotes that now reads like a Polaroid from commencement of the cases that are fighting back to just before the Second Circuit appellate oral arguments of 03.20.2023. It’s a limited print run, so grab your copy now.

While you’re at it, why not also grab a copy of “Arms Under Fire: A Handbook for Risk Mitigation Under the NY CCIA.” It’s on sale through 12.01.2024 for only \$15.01 and it ships with FREE print-outs of all four companion “Briefing Memos.”

This pairing of “Hochul’s War” + “Arms Under Fire” will get you up-to-date of what’s underway and what victories have been scored since June 2022 when this campaign began. Know a family member, friend, rod & gun club president, firearms instructor, or inspired pastor? This is the perfect holiday gift to your fellow Patriot, and it supports Second Amendment litigation in so doing.

A quick sneak peek? I’m already planning 2025 publications. Look for a White Paper about the attack by Hochul on our NY-based, federally-licensed dealers in firearms, including an analysis of the “ammunition background check system.” Pre-order for that

will start just after the first of the year. And, in April, I'm looking forward to the second edition of The CCIA Handbook - which will include a discount for those of you who purchase the first edition now on sale. And, also in April, I'm anticipating a first-in-class handbook for FFLs devoted to the new (2022) compliance mandates.

It's going to be a strong finish to 2024 and, as my father used to say, "Things are looking up!" for 2025.

Enjoy those left-overs and a deep walk in the woods!
