SEED DRESSING

STORAGE AND DISPOSAL

When treated seed is stored it should be kept apart from other grain. Such bags or other containers should clearly be marked to indicate the contents have been treated with SPECTACLE. DO NOT use seed treated with SPECTACLE for human consumption. Bags which have held seed treated with this product are not to be used for any other purpose.

Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.
