If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulation. DO NOT burn empty containers or product.

**Refillable Containers:** Empty container by pumping through dry-break connection system. DO NOT attempt to breach the valve system or the filling point, or contaminate with water or other products.
